

The 2009 General Convention of [The Episcopal Church](#) directed the [Standing Commission on Liturgy and Music](#) to collect and develop theological and liturgical resources for blessing same-sex relationships ([Resolution C056](#)). The Commission has formed several [task groups](#) to help it with this work:

- theological resources;
- liturgical resources;
- pastoral and teaching resources, to assist congregations who are considering whether to host such blessings, and to assist clergy preparing couples for a liturgical blessing.

We invite your participation in this dialogue about blessing same-sex relationships. Your responses and observations here will help inform the work of the Standing Commission on Liturgy and Music in our work of developing theological and liturgical resources for such blessings. We hope that this conversation will also be a way to renew and enliven a shared vision of the church's mission in the world.
